

FERTISAIN

100%
écologique

*Foliar fertilizer enriched with extracts of
Trichoderma Biostimulants biological*

LAWNS

- Stimulates the defenses of plants
- Improves nutrition and metabolism
- Allows to obtain quality products rich in molecules of interest

Use

- Shake well before use
- Preventive spraying to stimulate the natural defences of the plant and fungicidal surface action

Composition

Peptides extracted from *Trichoderma harzianum* : 14%
Natural orange extracts: 2%
Iron chelate: 0.2%

«Trichodermaharzianum TrBde strain»
Registration N° : I-5327, filed with the
CNMC on 12 June 2018

Packaging

- 1L bottles
- 5L Cans
- 20L Cans

Storage: 1 year in a cool and dry place away from the light

Complies with the standards for foliar fertilisers -NFU 42-003-2 Complies with EC Regulation N° 384/2007

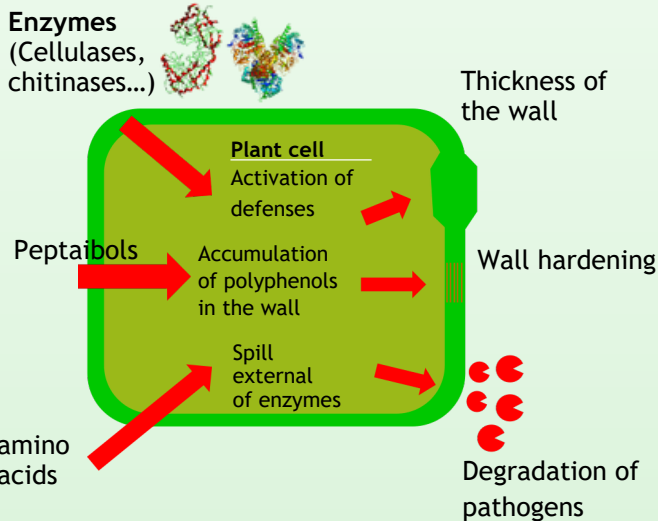

FERTISAIN

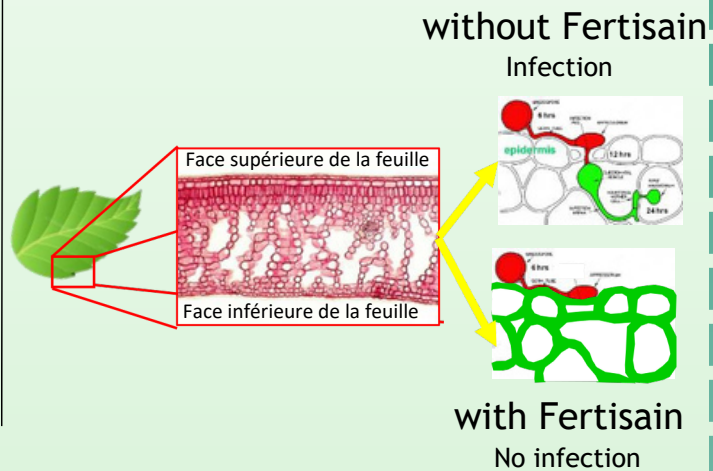

Engrais foliaire enrichi en extraits de Trichoderma Biostimulants biologique

Fertisain is a foliar fertilizer that actively stimulates the plant's natural defenses, enabling it to effectively anticipate the attack of possible pathogens. Fertisain ensures the plant optimal nutrition to strengthen its protection and move towards quality production.

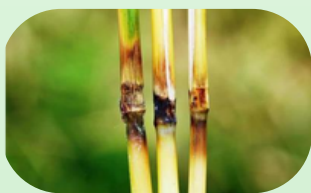

Action at the cell level

Action at plant level

➤ Stimulates the plant's defenses against :

Pyricularia/
Magnaporthe

Pythium

➤ Standard program

If no foliar disease: **Fertisain 3L/ha** every week (defense stimulator effect). At the first symptoms of foliar disease : **Fertisain 5L/ha** (fungicidal effect)
