

PLANTSAIN

Organic fertilizer enriched with
Trichoderma extracts

LAWNS

- Fluidizes the sap and vessels and prevents their congestion by pathogenic fungi
- Improves metabolism
- Protects against attack by pathogens Biocontrol

Use

- Shake well before use
- Mid-season disinfection: 20L/ha
- Maintenance: 5-15L/ha/week in case of vascular or soil disease

Composition

Trichoderma harzianum extracts : 4%
Nitrate (NO₃): 2.75%
Soluble magnesium (Mg): 2.25%
of which oxidized (MgO): 15%
Natural orange extracts : 2%
«Trichodermaharzianum TrBde strain»
Registration N°: I-5327, filed with the
CNMC on 12 June 2018

Packaging

- 1L bottles
- 5L Cans
- 20L Cans

Storage : 1 year in a cool and dry
place away from light

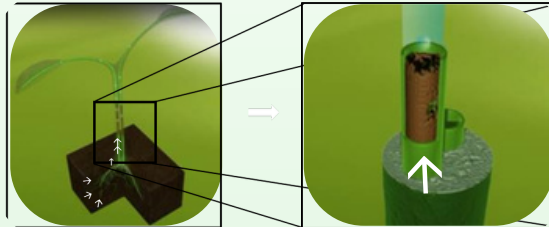

Complies with the standards Organic fertilisers –NFU 42-003-2 Complies with EC Regulation N°384/2007

PLANTSAIN

Organic fertilizer enriched with Trichoderma extracts

PLANTSAIN penetrates the plant's vessels through the roots and fluidizes the sap to prevent clogging and congestion of the vessels by the pathogens.

Photograph of vessel clogged by pathogens

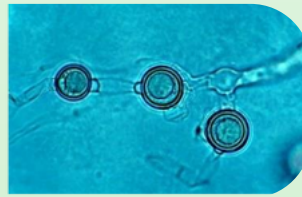

➤ Prevents vessel congestion caused by:

Red thread

Fusarium wilt

Pythium

➤ Standard program :

Soil disinfection (fungal problems)
Plantsain 20L/ha

If no vascular or soil disease:
Plantsain 5L/ha every 2 weeks (cleans the vessels and feeds the grass)

At the first signs of vascular or soil disease:
Plantsain 15L/ha (fungicidal effect)
